Commercial Vehicle Operator's Registration (CVOR) certificate holders that have deliveries being affected by convoy protests at the Ambassador Bridge as well as any international road crossings into Ontario will be eligible to apply for a temporary exemption to the Hours of Service regulations in the *Highway Traffic Act* (HTA).

Interested clients must send an email message to csio@ontario.ca that includes the following information:

- CVOR certificate number
- Plate number of travelling vehicle
- Origin and destination
- The following declaration: "I hereby declare that the company associated with the above-mentioned CVOR number is not participating in the truck convoy protests and is applying for this exemption due to business operations being unduly impacted by the blockages directly impacting delivery routes."

If approved, the Ministry of Transportation (MTO) will provide the applicant with an Hours of Service exemption certificate. This certificate will provide a full exemption to Hours of Service requirements that is valid **until the load is delivered.** Hours of Service requirements will be applicable in full force for the return trip.
